

FINE TEST FOR YOUR MEMORY

Pictures of Notables to Be Published in Monday's Issue

In our issue next Monday we will publish a remarkable composite illustration. It includes 32 of the most famous people of this age. It offers an excellent test of the general knowledge and memory of any man, woman or child. The object of this newspaper is to ascertain just how keen is the memory of its readers.

ERUPTION LIKE PIMPLES ON FACE

Developed Into Sores. Would Almost Scratch Himself Raw. Cuticura Soap and Cuticura Ointment Completely Cured Him.

Waltham, Kan.—"My child's scalp trouble became so bad that I was ashamed to have anyone see him. His head had a solid scab on it. He also had a terrible breaking out on his face which was gradually growing worse. The eruption was like pimples which developed into sores when he scratched which he did almost constantly. Baby would almost scratch himself raw."

"I had used several different kinds of ointments, none of them helping in the least bit, when I saw the Cuticura advertisement in the paper and it made me think of the good results my sister had when she used it for her children. I had only used Cuticura Soap and Ointment about two weeks before I noticed that the sores were almost entirely gone and it must have been a month or six weeks he was troubled before I began the treatment. He would get easy when I would put the Cuticura Ointment on him. Cuticura Soap and Ointment completely cured him and he has a clear complexion now. I also use Cuticura Ointment on the older children's heads and find it leaves the hair soft and silky." (Signed) Mrs. W. H. Hughes, Dec. 31, 1911.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. A single set is often sufficient. Liberal sample of each mailed free, with 32-p. skin book. Address post-card "Cuticura, Dept. T, Boston."

*Tender-faced men should use Cuticura Soap Shaving Stick, 25c. sample free.

have been published so often and so extensively that you will probably have no difficulty in recognizing all or nearly all of them. However, you may find it somewhat more difficult to name them correctly than you will in recognizing them the instant you see the illustration. Most people remember faces readily but not names, because the impressions received by the eye are more enduring than those made on the mind or memory. At first thought this may seem a curious statement to make, but upon reflection, you will no doubt admit that it is supported by your own daily experience. If the fact seems curious to you it is just because the experience to have memory fail us when eye or ear remind us, is so very common that it never occurred to us to think of it in just this way. For instance, how often have you heard a familiar musical refrain, or seen a familiar face and stopped and tried your best to name it but without success? How often have you said "It's on the tip of my tongue," and how exasperated you felt because your memory proved so elusive that you simply could not name it. The illustration to be published in our issue next Monday, constitutes an admirable means to test how well your memory serves you.

Each portrait of the 32 in the illustration will be numbered.

All you need to do is to place numbers from 1 to 32 on ONE SIDE of a sheet of paper and opposite each number write the name of the portrait to which the number refers.

Then address your list to the Members' Test Editor, Calumet News.

Senders of the twelve lists nearest correct will each receive from this newspaper two reserved seat tickets to ride the globe with Lyman H. Howe at the Calumet theater, Nov. 9 and 10. Mr. Howe's Travel Festival has been selected as a most appropriate medium to reward senders of the twelve lists nearest correct, because Mr. Howe's scenes of world-travel make such a direct and pleasing impression on the eye that they endure much longer than they would if you merely read printed descriptions and then had to depend on an unreliable memory to recall them. Furthermore, Mr. Howe's new program is as cosmopolitan in its nature as the composite illustration to be published in our issue next Monday.

COLONEL GOES AFTER WILSON

Continued From Page One.

a request that no effort be made by the crowd to cheer him beyond the limit of time accorded last night in the same hall to Governor Wilson.

"When Colonel Roosevelt raises his left hand," he said, "he asks you, to let him proceed with his speech because he desires a record next Tuesday in the voting rather than a record tonight in the duration of the cheers."

Oscar S. Straus, candidate for governor and other state speakers had held the stage until 9:40, when the Colonel arrived. He was wildly cheered as he forced his way to the front of the platform and waved a welcome to all parts of the hall. It was twenty-five minutes before his uplifted hand brought the cheering to an end. After it had gone on for twenty minutes he raised his hand, but the crowd renewed its cheers and he dropped his arm to his side. Again he made the gesture, but an enthusiast unfurled a giant bandana from the roof of the Garden and then the crowd was again in an uproar.

When he could finally make himself heard, the colonel, declaring that he spoke in behalf of the Progressive state and local tickets of New York, talked for over an hour, his voice strong and his strength apparently unimpaired by the effort. Success in the state, he declared, was essential to progressive success throughout the nation.

WOULD COACH S. S. TEACHERS

Y. M. C. A. Religious Work Conference Last Night

The establishment of a training school for Sunday school teachers is an early development to be expected from the Y. M. C. A. religious work conference conducted last evening by State Secretary L. E. Buell of Detroit and Upper Peninsula Secretary George Westermann of Calumet. The Y. M. C. A. will establish such a school during the coming week. It will be non-sectarian, each denomination supplying three or four prospective teachers, who will be coached by some experienced man and will then apply the teachings in their Sunday school work. That this training school and the improvement in Sunday school work it will make possible will form an important feature of the religious development of the community is the opinion of the fifty religious workers who attended the conference.

Many pastors were present and other leaders, a large number of denominations and churches being represented. They were asked regarding the male attendance at the church services, of boys from 8 to 12, of youths 13 years of age and of the men in the bible classes. It was freely admitted there is a big opportunity for greater religious activity on the part of the men. Several pastors expressed the difficulty they have experienced in securing trained teachers for Sunday school work and it was arranged for the Y. M. C. A. to establish a training school at once.

State Secretary Buell spoke on phases of the work which had come under his observation.

Tomorrow Mr. Buell will address the first of a series of Sunday afternoon meetings in the Y. M. C. A. gymnasium at 4 o'clock, speaking on, "The Average Man and His Bible."
